### Product Description and Purpose:

This elastic and fixed plaster bandage is, due to its elasticity, easy to apply. For the same reason the plaster bandage can be excellently shaped. In orthopaedic technology, RUHRSTERN®Elastik bandages are used for the production of plaster casts for prostheses or orthopaedic shoes. In unstretched condition, the bandage is 2 m long.

### Composition

Viscose, calcium sulphate hemihydrate, copolymer

### Normative and Legal Requirements

RUHRSTERN®Elastik is a medical product in accordance with the MDD, class I, rule 1, and complies with the requirements of the directive 93/42/EEC.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and ISO 15223-1 labels on all its packaging.

### Packaging

Primary packaging: folding box made of cellulose

Secondary packaging: carton made of cellulose

### Storage

To be stored in a dry and dust-free environment

### Other informations
